

Literacy

All pupils are going to improve upon their writing skills and write independent pieces using different writing formats.

The Arts

We are going to continue to provide our P4/5/6/7 pupils with the opportunity to learn to play a musical instrument.

Numeracy

We are going to focus on Mental Maths strategies. All pupils in P5/6/7 will be aware of and can confidently use all 7 strategies.

Working with our Community

We are going to improve how we connect to people in our local community and to parents. We will have all types of events!

Pastoral Care

We are introducing a House Points system to reward good behaviour.

Attendance

We will ensure all of our pupils achieve their potential by attending school regularly. We're aiming for 96% this year.

What are we doing to improve our school this year?

STEM

We are going to make sure that everyone takes part in Science, Technology, Engineering and Mathematical challenges this year.

Eco & Student Council

We are going to vote for someone in your class to represent your voice as pupil leader. They will work with the teachers to tell us about things that are important to you and how you think we can make our school better.

Pupil Safety

We will always strive to ensure our school is a place of welcome and where everyone can feel safe and happy.

Teaching and Learning

We want to make sure that the school is outstanding by teachers helping us to improve. They can show us our next steps in learning and plan appropriate activities.

Shared Education

We are going to build to give our P4/5/7 classes experiences with other children in Portavogie Primary School

What do you think of our plans?

If there's anything you want to tell us about this, write a note to Mr Gilchrist. We'd love to hear your thoughts!
