

PARENT AND CHILD SPRING CHALLENGE

CREATE

A

'BUCKETFUL OF HAPPINESS!'

Let's continue to enhance our outdoor school environment while your child learns about SCIENCE and POSITIVITY too!

- Get a beach bucket and spade.
- Put some holes in the bottom of the bucket.
- Layer some small stones inside the bucket and add some compost.
- Plant a small shrub or flower in it.
- Label it with your child's name and send into school.

We will put all buckets up around the school and we will maintain them!
